

Profile**Thomas Sabino-Benowitz**

iOS Developer specializing in Swift and Objective-C programming with storyboard or programmatic UIs. Currently learning SwiftUI, Realm and UX/Design. I'm passionate about creating a standout product using the various available tools and frameworks.

Experience

INTERN, ECOSOAPBANK; PITTSBURGH, PA – 2020-2021

- Worked with EcoSoapBank developing their iOS app in Swift using a GraphQL backend and Okta SSO Authentication. This app enables the organization to communicate effectively and empowers administrators to have effective access to all of the data they need to work with as it's entered in real time. EcoSoapBank is a non-profit which remanufactures unused soap from hotels and other partners and distributes it to countries like Laos, Rwanda and Lebanon.

SOFTWARE DEVELOPER, UNDERDOG DEVS, ORLANDO, FL – 2020-PRESENT

Directly assist the principal, Rick Wolter, on building a community that helps formerly incarcerated people find a new career in software development. This non-profit matches these aspiring developers with industry mentors and champions, and provides a space for them to accelerate their learning in web and mobile development.

SOFTWARE DEVELOPER, OO SOFTWARE; CLEARWATER, FL – 2020-PRESENT

Develop applications for broad release in the lifestyle and entertainment categories. This is my own personal software company, multiple apps are in pre-launch.

PERSONAL CARE AID; LAKE WORTH, FL – 2015-2017

- Provided driving services, first-line medical attention, and live-in assistance to a Parkinson's patient with advanced Lewy-body Dementia. Oversaw preparation of nutritious and healthy food which was safe for the patient to eat as well as enjoyable.

Education

Lambda School, Computer Science & iOS Development
in Swift and Objective-C — 2021
